

A large industrial machine with a black frame and red internal components is shown in a dark setting. It is wrapping a pallet of cardboard boxes with clear stretch film. The machine has a rotating turntable and vertical support columns.

OMC-H
series

HORIZONTAL STRETCH WRAPPING

WITHOUT COMPROMISE

A red circular callout containing a blue square with a white curved arrow pointing to the right.

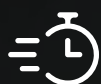

Suitable
for loads
over pallet

Our intelligent horizontal pallet wrapping machines

Size variations

- Load sizes depending on model:
Width: 400-2200mm, Length: 600-2600mm,
Height: 200-3200mm
- Standard sizes OMC-H23, OMC-H26, OMC-H30 and OMC-H32
- Tailormade sizes on request (biggest machines in the world)

Performance:

- Up to 150pph (pallets per hours)

Features (always standard):

- Siemens totally integrated controlling system
- Load stabilizer
- Counter plate seaming device
- Power pre-stretch carriage with easy film change (PCR Ready)
- Heavy duty steel construction

Modular options:

- Integrated top sheet (dust or splash proof)
- Double arm construction (high capacity)
- Automatic roll changer RCA1+4 or RCA 1+9
- Corner post applicator with magazines
- Power roping (flexible film roping)
- 750mm wide film carriage
- Variable power pre-stretch system (High pre-stretch levels)

Material properties

- Thickness: 8-40 microns
- Width: 500 or 750mm, Diameter: 240mm, Inner core: 76mm

Stand alone

The All-Around Solution for Pallets

Ideal if:

You package pallets in large
quantities or in a variety of
sizes and want to flexibly
adapt the machine to
your needs.

Lifecycle Care

The extra care for your FROMM & Octomeca products

The Lifecycle Care program for your FROMM & Octomeca product offers self-configurable service modules customized to your own needs.

It starts with a full joint assessment and planning phase, followed by the selection of fixed, variable or individual service intervals and levels – optionally combined with spare parts deliveries and interim software updates.
